

REMARKS

By the foregoing Claim 1 has been effectively amended to include therein the subject matter of former claim 3 and intervening claim 2.

Claim 11 has been amended to effectively include therein the subject matter of former claim 3.

Claims 2 and 3 have been canceled.

Newly submitted claims 14-20 are similar in scope to original claims 4-10.

In the Office Action to which applicant responds, the examiner indicated the possible allowability of inter-alia former claim 3. Accordingly, it is believed that with the foregoing amendment, since all claims now depend either directly or indirectly upon what is believed to be an allowable claim, all claims should be allowable at least for this reason, and favorable reconsideration of the application is earnestly requested.

Applicant encloses herewith the relevant pages of a search report issued May 12 in connection with the concordant PCT application (PCT/ IB2004/004039). Applicant's agent is not yet in receipt of all of the citations, and these will be forwarded as they come to hand. However, it is noted that the most pertinent of the citations applied herein by the examiner was cited by the PCT examiner merely under category A, as being of background interest only. In view of the instant amendments, which are made in an endeavour to secure a prompt allowance of the application, the rejection of claims on the grounds cited is rendered moot, and applicant makes no admission as to the merits of the rejection.

Early and favorable reconsideration is respectfully requested.

Respectfully submitted

Jan Folkmar, Applicant
